HEALTH STATUS

___ My pup has had all of the following (required):

- at least one parvo/distemper vaccination
- a fecal exam showing no giardia or coccidia

___ My pup is on preventatives for fleas, ticks and heartworm.

___ My pup has had a bordetella vaccination (recommended, not required)

___ My puppy has been in a safe, clean home environment (i.e. not a shelter or large-volume breeder) for at least two weeks.

___ PuppyPALS is a circle of trust! :) I will not bring my pup to PupStart if he/she is showing signs of the following, and I understand that my pup may be sent home if any of these things are on display:

- diarrhea
- vomiting
- coughing
- skin issues (ring-like spots, hair loss, itchiness, bumps etc.)

RISK OF INJURY, ETC.

___ I agree that the benefits of group socialization outweigh the risks, and I accept the risks.

___ INJURY: I understand that while socialization and play is closely and carefully monitored by PupStart, it is possible that during the course of normal play my pup could end up with a cut, a pulled muscle, or something more serious.

___ OUTDOOR HAZARDS: Since this play takes place outside, I understand that there are more natural hazards (sticks, rocks, acorns, puddles, etc.) than in a typical indoor doggy daycare and believe it is worth the risk.

___ DISEASE/PARASITES: I understand that, while all adult pets on the premises are fully vaccinated and on preventatives for worms/ticks/fleas, and participating puppies are as screened and protected as possible (see above), there is still wildlife in the area (foxes, raccoons, deer, mice, feral cats) that could introduce disease and/or parasites to the yard.

___ I further understand that PupStart will not be liable, financially or otherwise, for injuries to my dog or to me while my dog is participating in services provided by PupStart. I hereby release PupStart of any liability of any kind arising from my dog's participating in any and all services provided by PupStart.
